ABOUT THE CEO100

CEO100, by Chief Executive Network, is an exclusive peer group only for CEOs who run companies with \$100 million to \$2 billion in revenues. CEO100 was launched to help serve CEOs who run these complex companies and who have unique needs but often feel they are underserved and “stuck in the middle” due to not having the same resources of Fortune 100 companies.

CEN100 members gain access to unbiased advice, ideas and support on their most pressing strategic, organizational, board and personal leadership issues from peers who are or have been in the same situations and learned important lessons they are willing to share.

Members also get sage advice from our world class CEO mentors who have run large corporations such as Home Depot, Pharmacia Upjohn, Stanley Black and Decker and are willing to share their experiences, mistakes and advice with our members.

WHY JOIN:

You don't have to make key decisions alone anymore, without the benefit of hindsight and insight. Peer into the future with a peer group of CEOs who have been there before with comparable companies—and are willing to help you navigate your challenges and opportunities.

CEO100 MEMBERSHIP INCLUDES:

● Your Personal Board of Advisors

We place members into confidential, professionally facilitated peer groups with up to 14 other members who are compatible and not competitors. Each group meets semi-annually in person or online. In these intimate Personal Board of Advisors meetings, CEO100 members can discuss their most pressing issues and get honest feedback, advice and ideas.

● CEO Mentors
